

## **Professional Development**

Teacher candidates are required to attend three university planned seminar sessions during the semester including the career fair. These include:

1. One day-long seminar on the introduction to student teaching, including sessions on AsU Learn, The Professional Development Plan, TK20, resume writing and using Career Gear.
2. One full-day seminar with required sessions on formative assessment and professional development planning along with self-selected options, and
3. The career fair and personnel directors' panel.

In addition, university supervisors may plan small group meetings focused on other teaching issues and discussions of appropriate progress during the student teaching semester.
